MISSION OF THE CENTER

The Center for Vocational and Technical Education is an independent unit on The Ohio State University campus. It serves a catalytic role in establishing consortia to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach and interinstitutional in its program.

The Center's mission is to strengthen the capacity of state educational systems to provide effective occupational education programs consistent with the individual needs and manpower requirements by:

- Conducting research and development to fill voids in existing knowledge and to develop methods for applying knowledge.
- Programmatic focus on state leadership development, vocational teacher education, curriculum, vocational choice and adjustment.
- Stimulating and strengthening the capacity of other agencies and institutions to create durable solutions to significant problems.
- Providing a national information storage, retrieval and dissemination system for vocational and technical education.

This publication was prepared pursuant to a grant with the Bureau of Occupational and Adult Education, U.S. Department of Health, Education and Welfare. Contractors undertaking such projects under Government sponsorship are encouraged to express freely their judgment in professional and technical matters. Points of view or opinions do not, therefore, necessarily represent official Bureau of Occupational and Adult Education position or policy.

   These documents have an availability listed in the resume. Often such documents are not available by any other means.

2. MICROFICHE AND HARD COPY REPRODUCTIONS

   Documents with ED numbers are usually available individually on microfiche ($0.65 a title) or paper copy (xerox - $3.29 per 100 pages or fraction thereof) from:

   ERIC Document Reproduction Service (EDRS)
   P. O. Drawer O

   A microfiche set contains all the documents announced in a single issue of AIM or ARM which are not available by one of the two options outlined above. The documents are filmed continuously in VT number order. Each set is assigned a single ED number.

   AIM/ARM, VT-ERIC microfiche sets are available:

   - In any complete collection of ERIC microfiche.
   - As AIM/ARM, VT-ERIC Microfiche Sets purchased individually. (See page 498 for HOW TO ORDER AIM/ARM, VT-ERIC MICROFICHE SETS).
   - From institutions (e.g., state research coordinating units) which have the AIM/ARM, VT-ERIC Microfiche Sets and are willing to provide microfiche duplicates of individual VT numbered documents.

THESAURUS OF ERIC DESCRIPTORS

The Thesaurus of ERIC Descriptors has been developed during the past 6 years under the auspices of the Educational Resources Information Center (ERIC). This definitive vocabulary of education has been developed and updated by educators who review the literature in their field. The Thesaurus is the source of all subject headings used for indexing and for retrieval of documents announced in Abstracts of Instructional and Research Materials in Vocational and Technical Education (AIM/ARM), Research In Education (RIE), and Current Index to Journals in Education (CIJE).

The Thesaurus serves to give all educators an increased awareness of the language of education. It is useful to teachers, students, administrators, or anyone interested in locating information on any educational topic.

Searching for information/documents in the AIM/ARM and ERIC data bases can be done more quickly and with greater accuracy by consulting the latest edition of the Thesaurus for proper search terminology.

The Thesaurus of ERIC Descriptors may be purchased for $8.95 from:

Macmillan Information
A Division of Macmillan Publishing Co., Inc.
